EMERGENCY WATER INFRASTRUCTURE REBATE SCHEME

- Eligible Primary Producers can claim a rebate of 25% of the cost of purchase, delivery and if applicable, the professional installation costs to install water infrastructure for animal welfare needs.
- The On-Farm Emergency Water Infrastructure Rebate scheme can be applied to costs incurred from 1st July 2018 for new purchases, and installation of pipes, water storages and water pumps, de-silting dams, and associated power supplies such as generators.
- This rebate applies to the purchase and installation of emergency water infrastructure for livestock permanently residing on your property and not part of an agistment
- You purchase and install the water infrastructure for animal welfare needs, because:
 - (i) water is currently being carted or about to be carted onto your property to supply livestock where water supply has run out;
 - (ii) or your property could be reasonably expected to run out of water before the next expected inflow of water;
 - (iii) or the work will help ensure that stock water is available into the future during adverse seasonal conditions.
- The maximum that can be claimed is \$25,000 per farm enterprise. The availability of rebates is subject to funds being available.
- No rebates will be offered beyond the allocated funding of \$12 million or 30 June 2021, whichever occurs first.
- If you have applied for a Drought Assistance Fund loan for any water infrastructure, you can apply for the Water Rebate for the works carried out. The rebate will be paid into your nominated bank account and should you choose to you can then make an extra repayment on your Drought Assistance Fund loan.
